## WOUND MAY BE SERIOUS

ROOSEVELT RESTING AT CHICAGO HOSPITAL—MUST STAY AT LEAST TWO WEEKS.

Chicago, Oct. 16.—Theodore Roosevelt was not merely superficially wounded by the bullet fired into his breast in Milwaukee by John Schrank. It was determined last night by surgeons, after all-day examinations and consultations, and the Colonel must not see or speak to any one for several days without permission of the doctors.

The wound was definitely described as a serious wound in the chest, and "not a mere flesh wound." The late bulletins, which prohibited communication between the Colonel and others than his attendants, declared that "quietude is absolutely essential."

The surgeons asserted, however, that it was not necessary to probe for the bullet, and the patient probably will be kept as calm as possible as his nature will allow him for a few days.

The patient slept well at intervals during the day, ate ravenously of articles customarily making up his bill of fare, read lengthy extracts from Macaulay and hinted to his physician that he would not object to a ride in the fresh air.

Finally learning that the correspondents accompanying him on his speaking tour, who had left him after the assault in Milwaukee to file their articles, had rejoined his entourage at the hospital, Col. Roosevelt insisted that the edict of his physicians against communication with him be ignored for the time.

He received the newspaper men with an open, for not arising, just ed with them about his condition and told them, "I'll hurry up and get out of here so I can keep you busy again."

In opening the door to his room to admit the correspondents, the heavy odor of flowers banked high in the anteroom flooded the Colonel's apartment and he inhaled deeply several times. The extra effort caused a little pain, however, and when the doctors were shut again he instructed his nurse to present part of the flowers to other patients in the hospital. This was done.

His doctors, however, did not feel inclined today to allow him to leave inside of ten days, so that they might have no break in their minute by minute watch for possible infection from the bullet.

## 100,000 WOMEN IN CALIFORNIA WILL VOTE FOR GOV. WILSON

New York, Oct. 14.—Miss Mary E. Foy, State Vice-President for California of the Woman's National Democratic League, predicts that Woodrow Wilson will carry her state by 50,000 basing her forecast not so much on her loyalty to Wilson as on an investigation which showed he has great strength in California.

Miss Foy is now on her way up the coast, having organized branches of the League in San Francisco, Berkeley and more southerly towns and placed them in charge of women who

are working in perfect harmony for the principles of democracy. She reports:

"There are more than 100,000 democratic women registered here and we have many republican women in our ranks, endeavoring to do in California what Woodrow Wilson is doing for the nation—regenerating the democratic party."

"Personally, I am a strong suffragist, and I admire Governor Wilson for his stand in the matter. He has not shown his attitude, because he believes suffrage is a state and not a national issue."

"The Progressive party inserted its suffrage plan in its platform to catch the votes. It does not intend to make equal suffrage a National issue, for that cannot be done. However, the more prominent suffragists will not be misled by such a Bull Moose trick."

## BOARD OF AGRICULTURE

### DEMANDS RESIGNATIONS

Oklahoma City, Oct. 16.—The anti-Brewer-Elliott faction of the state board of agriculture held a "re-organization meeting" in the Lee Hucks hotel Monday night, passed resolutions demanding the resignation of Elliott to come forward with their resignations as members of the board, applied the ax to thirteen of the boards "useless" employees, reappointed several committees which were abolished at a previous meeting by the opposing faction and elected N. T. McAlister, vice president to succeed Frank Haynes, who resigned.

The members who participated in the meeting constitute that faction of the board which has opposed Brewster and Elliott. It was called "reorganization meeting" by those who attended. In the absence of President Bryan the meeting was called to order by Vice President Haynes, who exercised the authority given him by the constitution of the board which gives him the right to call a special meeting in the absence of the president when petitioned to do so by five members of the board. President Bryan, Brewster and Elliott are out of the state.

Those who attended the meeting were Haynes, Hinds, Vincent, Griffin, Wilson and McAlister. Those not attending were Corley, Elliott, Brewster, White and Bryan.

## WILL TRY SCHRANK AFTER THE ELECTION

Milwaukee, Wis., Oct. 16.—State Attorney Winfield Zabel of Milwaukee has definitely announced that John Schrank, Colonel Roosevelt's assailant, would not be brought to trial until after the national election, November 5. He said Schrank would be allowed to withdraw his plea of guilty, entered at the preliminary hearing yesterday, and that the trial would be opened some time between November 11 and 15. Mr. Zabel is the only Socialist state's attorney in the country and gave three specific reasons for his decision to put off the trial for one month.

He said, first, it was only reasonable to await the results of Colonel Roosevelt's injury; second, he had no desire to crowd the defendant, and third, gave it as his opinion that it would be unwise to call the case during the final struggle in the presidential campaign.

"If we went to trial before election day, it is almost certain that the matter would be dragged into the campaign by one or the other of the big political parties," said Mr. Zabel.

Discussing the case as viewed by him, the Milwaukee county prosecutor said that as far as surface indications are concerned, Schrank was sane.

"But," he added, "there will be no persecution of the defendant. He will be tried justly and fairly and can expect to receive the punishment merited by the crime."

Schrank spent a quiet afternoon and evening in his cell at the county jail. At the prisoner's request the sheriff refused to let any one into the cell-house to see him.

Much interest centered in the chemical tests of the remaining bullets in Schrank's revolver which were started by Prof. R. E. Summers, of Marquette university, to determine if the bullet with which Colonel Roosevelt was wounded had been poisoned. The result will not be known for some time.

Schrank, when questioned on this point, denied emphatically he had used poisoned bullets.

## HARAWAY-TORBETT

Tuesday evening, at 8:30, at the First Baptist church, the marriage of Mr. Edwin S. Haraway and Miss Estelle Torbett was solemnized, Rev. C. Stubblefield officiating. The church was crowded to its full capacity, striking tribute to the high esteem in which the contracting parties are held by all classes.

The bridal party consisted of C. J. Warren and H. P. Sugg, ushers, R. A. Nesbitt and P. A. Thompson, groomsmen, Misses Alpha Sledge and Hooper, Bridesmaids, and J. Frank Maddox, best man, and Mrs. Maddox, matron of honor. The wedding march was played by Mrs. R. W. Simpson.

Immediately after the ceremony a reception was given at the home of the bride's parents, Mr. and Mrs. S. M. Torbett. It was also attended by several hundred of the friends of the young people.

The fair bride has grown to young womanhood in Ada, and her charm of manner and accomplishments have made her one of the prime favorites in the younger society of Ada.

The groom has also lived here a number of years, and by his close application to business has won an enviable reputation as a promising young man of affairs. He has for sometime held the responsible position of assistant cashier of the First National bank and with his energy and ambition his success in life is assured.

A more detailed account of this interesting social event will be published in Saturday's paper.

## Addresses by Noted Educators.

Albany, N. Y., Oct. 16.—The program of this, the second day of the exercises in connection with the dedication of the New York State Education Building, included addresses by such noted educators as President Charles R. Van Hise of the University of Wisconsin, President Nicholas Murray Butler of Columbia University, Prof. William S. Myers of Princeton University, and Dr. Henry S. Pritchett, president of the Carnegie Foundation. Another notable speaker of the day was Canon Henson of Westminster Abbey, London, who spoke on the value of historical studies to the higher learning.

## Army of Cumberland Reunion.

Chattanooga, Tenn., Oct. 16.—A small but distinguished body of civil war veterans assembled in Chattanooga today for the annual reunion of the Society of the Army of the Cumberland. The reunion began today and will continue over tomorrow, the program providing for several business sessions, interspersed with visits to the battlefields in this vicinity.

The Army of the Cumberland took one of the most active and important parts in the civil war. Its objective was the reclamation of the seceded states of Tennessee, Alabama, Georgia, North and South Carolina, and the western parts of Virginia. The victory of this army at Mill Springs was the first of the war at which a matured plan was completely and successfully carried out. At Shiloh the timely arrival of the soldiers of the Cumberland saved the day, while at Missionary Ridge the victory of this army was one of the most stupendous feats of the war. Chickamauga was the only battlefield that the Army of the Cumberland, in its unity, ever yielded to the enemy. In the spring following the battle of Chattanooga, the Army of the Cumberland, as a part of the military division of the Mississippi, joined in the memorable campaign from Chattanooga to Atlanta. After Jonesboro and Atlanta, the formal unity of the Army of the Cumberland was broken.

The commanders of the Army of the Cumberland were Gen. Robert Anderson, Gen. W. T. Sherman, Gen. D. C. Buell, Gen. Rosecrans and Gen. Thomas. Among its corps and division commanders were Gens. Sheridan, Hecker, McCook, Crittenden, Howard, Palmer, Steedman, and others well known by their gallantry and achievements.

## WILL RECEIVE GOOD

### ROADS MOVEMENT

The good roads boosters of Ada are now working on another plan to build a few miles of model road for the double purpose of making it easier to get to Ada and as an object lesson to the public in general. A competent engineer will be employed to make plans and an estimate of the work after which further steps will be taken in the matter. As little assistance can be expected from the county or township, it will be up to the business interests of Ada to handle the proposition.

It is planned to improve the three-mile stretch of road from Ada to Pecan Grove school house and three miles of the road to Center. At present the farmers of those parts are badly handicapped in coming to Ada because of the bad roads, but with these improvements it is reasonable to believe that the traffic will greatly increase. It is planned to make improvements of a material nature so that the work will not have to be done over every few months.

## Noted Soldier 85 Years Old.

London, Oct. 16.—The observance a week or so ago of the 80th birthday of Lord Roberts served to call attention today to the 85th birthday of another noted British soldier, General Sir William Gordon Cameron. General Cameron began his military career nearly 70 years ago and took part in almost every important war and military expedition in which British arms have been engaged from the Crimean war in the '50s until his retirement from the service in 1895.

## Reunion of Alabama Veterans.

Selma, Ala., Oct. 16.—Selma was gay with flags and bunting today in honor of the Confederate veterans of Alabama, whose annual state reunion was opened under highly favorable conditions. An attractive two days' program has been prepared for the gathering. The presence of numerous sons, daughters and other relatives and friends of the veterans has helped to swell the attendance.

## Second Trial of E. G. Lewis.

St. Louis, Mo., Oct. 16.—E. G. Lewis, the University City publisher and promoter whose troubles with the postoffice department attracted wide attention and resulted in a congressional investigation, was arraigned in the United States District Court today to stand trial for the second time on charges of using the mails to defraud. In the first trial of the case, which was held about a year ago, the jury failed to agree.

## Good Peanut Crop Near Oakman.

Demonstration Agent A. L. Kennedy and M. F. West went to Oakman this morning to get some photos of the peanut crop of Wm. Carter. Mr. Kennedy stated that Mr. Carter will make some 40 or 45 bushels per acre. There is nothing lost in a crop of this kind. Not only is there a ready sale for the goobers themselves at an average price of 90c per bushel, but the vines make most excellent hay for stock.

There are three things that go to make a good cigar: good tobaccos, perfectly blended, skilled labor and knowing how to combine the two. We don't buy cigars because we like the man who sells them. We know how they are made, what they are made of, which accounts for the popularity of the cigars we sell.

We especially recommend a new cigar we have just got in which is unquestionably the best value for 5c on the market today. The filler has a fine flavor and aroma and it burns evenly and is good down to the last puff. If you are a discriminating smoker, don't fail to try one.

It is only natural for one to endeavor to avoid the person who has a chronic frown and seeks the society of the one who meets the world and the responsibilities of life with a smile. Even if things are really going wrong, one does not enjoy being constantly reminded of the fact. A sunny smile is a fine business asset and has made the fortune of many a man by attracting customers to his place of business. Even forced smiles are better than a frown.

## COTTON RECEIPTS ARE 4,046 BALES

At 2:30 this (Wednesday) afternoon Ada's cotton receipts for the season totaled 4,043 bales, of which 3,524 had been received at the county yard and 519 at the round bale gin the output of which was 1,038 round bales. This is probably something like one-third of what will be brought to Ada before the close of the season, unless frost cuts the crop somewhat shorter than present indications point. Cotton is now coming from across the Canadian and it appears that a sufficient quantity will be received from that source to offset any reduction that might have resulted from a reduced acreage in Pontotoc county. The price is still declining and on the streets today the average has been around 10.65.

## HIS SYMPATHIES WITH ELK

Somewhat Natural, Since Animal Rescued Engineer From Extremely Awkward Position.

A curious story of adventure comes from Montana. While a freight train was lying over at a small mountain station, the engineer borrowed a shotgun and started out for a short hunt. Finding nothing, he was returning to the train when a cow came running at him, and before he realized his danger, she tossed him in the air. Getting to his feet as quickly as possible, he dodged behind a tree, and then, to his dismay, found that the gun barrel was bent so as to be useless. The next ten minutes were very lively ones, while the cow chased the engineer round and round the tree. Just when he was about to succumb from fatigue, an angry snort was heard, and a big elk appeared upon the scene, head down and prepared for a fight. So was the cow, and in another moment the two animals dashed at each other. The engineer watched the combat for a few minutes, until prudence suggested that he should make a retreat as soon as he could. He regained the train in safety, and never knew the outcome of the battle, but he hopes the elk was the victor.

**Advocate Leaves of Soap.**  
A chemical friend of the Scientific American suggests that a campaign be started against the common cake of soap. About 50 years ago there was sold a form of soap for travelers, consisting of a booklet, about two inches by four inches, in which small leaves of soap paper saturated with soap were bound. Each leaf contained enough soap for one washing of the hands. It is suggested that one might profitably dispense, through a penny-in-the-slot machine, a paper towel in which is folded a sheet of soap paper, for convenient use in public lavatories.

## ALLEN ITEMS.

Mr. Row, proprietor of the Allen bakery, made a business trip to Ballard, in the northwestern part of the state, last week.

W. T. Anglin, an attorney from Calvin, had business in Allen, Saturday. Mr. and Mrs. Hudson Rock, formerly of Konawa, visited friends here last Thursday night. Hudson is now traveling for a grocery house, with his present headquarters at Calvin.

The Allen Altruist is now owned by home people. Jumper & Cummings have bought the plant and already report an increase of 25 new subscribers, besides additional advertising. There is no reason why Allen should not support a good paper, and if the owners increase the subscription the merchants will do the advertising.

W. L. Kemp, the jeweler, arrived home from Dallas, where he took in the fair.

Attorney W. B. Toney went to Holdenville Saturday, returning Sunday morning.

Rev. A. L. Rhea, a Presbyterian preacher from Durant, filled his regular monthly appointment here Sunday.

Dr. C. M. Means was an Ada visitor Friday. He reports politics picking up in that section.

Miss Annie Drake is recovering from an attack of typhoid fever and she hopes to be able to resume her school duties by the first of November.

Olle Keaton visited home folks at Atwood over Saturday Sunday. Cora Morrison and Charlie Drake are reported as being on the sick list with typhoid fever.

The new double brick building, west of the First State bank will be ready for occupancy the first of November.

D. H. Watson, daughter-in-law and grandson departed for their home in Beggs Sunday. Mr. Watson intends to go to Montana about the first of the month to homestead some land.

A. M. Cummings made a business trip to Ada Saturday, returning the first of the week.

The marriage of two of our most popular young people took place Saturday night at the home of the bride's grandparents, Mr. J. O. Ballinger and Miss Hattie Redden being united by Justice of the Peace John Yeargin. Miss Redden having been born and raised here is well known to everybody. Mr. Ballinger is the popular salesman in G. W. Busby's drug store, and has only been a resident

of Allen for about seven months. The happy young couple left on the north-bound train Sunday for a week's visit with his parents at Luther. The many friends of this young couple were at the train to see them off and to bid them God-speed on their journey through life.

Justice of the Peace John Yeargin is getting to be quite popular as the "Marrying Justice," having performed two ceremonies recently—one Saturday night and the other Sunday morning.

W. M. Pegg was a McAlester visitor one day last week.

There will probably be several from here who will attend the state fair at Dallas this coming week.

Dr. C. M. Means and wife left Monday to attend the Dallas fair.

R. E. Briang was over from Ada Tuesday.

## Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes.

Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

## COULD NOT SAY NO TO ADELAIDE

Major Atkinson, according to his wife's testimony, doesn't know how to say no to Adelaide, his niece. This assertion is borne out by the fact that when Adelaide asked him to appear in juvenile costume at what she called a "id party," which she was to give at his summer home, he consented with an outward smile and an inward groan.

"I wish," he said to his wife in private, "that Adelaide hadn't insisted upon my taking part in this ridiculous affair of hers. In fact, I don't see why she wants to give such a nonsensical party."

"Why do you aid and abet her?" demanded his wife. "When I suggested that she think of something newer and more dignified, you immediately said, 'Let her have any kind of party she pleases.'"

"Well, one doesn't like to be always interfering with her pleasures. There's no particular harm in her having a child's party, is there? But I know I shall feel like a perfect idiot dressed in the little girl's early Victorian costume that Adelaide has picked out for me." He glanced into the mirror and sighed as he stroked his graying Vanddyke beard.

The afternoon of the party Adelaide, after trying the strings of a quaint little sunbonnet under the major's beard, drew away and surveyed him from the top of the sunbonnet to the tips of his white stockinged and black slippered feet.

"Uncle, you're certainly the most execrably funny sight I ever beheld," she declared. "I'm so glad I found those pantalettes in grandma's old trunk. They're perfectly killing. You'll make the hit of the evening."

"I suppose I'm what you'd call a screaming success," said the major, somewhat wryly. "You don't think I'm too complete, do you?"

"No, you're just—just lovely," Adelaide squeezed the large sun browned hand of her uncle, half of which was neatly incased in a white lace mitt. "But with that cigar in your mouth you're a sight to behold."

"Well, I must have a little smoke before your guests come, Adelaide. I'll just take my magazine and read and smoke on the lawn until the festivities begin."

A little later, as Mrs. Atkinson and Adelaide were putting the finishing touches on their own costumes, they saw a striking looking couple alight from a motor car and approach the major, who rose with his accustomed courtesy and greeted them.

"Good gracious, Adelaide! Your uncle appears to be absolutely unconscious of his absurd attire," exclaimed Mrs. Atkinson. "He is taking those people around the garden as unconcerned as if he were dressed in a business suit. They must think he is crazy! Here, I'll slip on a long coat over my short skirt and run out and explain."

The major welcomed his wife with a smile. "I'm glad you joined us, my dear, for I wish you to meet Professor and Mrs. Lee of the university, who have heard flattering reports of our garden and have come way out from the city to see our rare roses. We are honored, I'm sure."

"I think," said Mrs. Atkinson to the visitors, after acknowledging the introduction, "that you are seeing something else quite as rare as our roses." She laughed and looked at her husband.

"By Jove, I'd forgotten this fool rig," exclaimed the major, with some temper. "I wonder what you can have thought of me."

"Well," laughed Professor Lee, "the friends who told us about your roses said that some of your neighbors considered you rather eccentric to devote so much of your time to flowers. When we introduced ourselves I thought you were perhaps a trifle unusual in your dress."

"Unusual! I should think so," exclaimed the major. Then, turning severely to his wife, he said: "I can't see, my dear, why you ever permitted Adelaide to go up such an idiotic party. I fear you give that girl her head too much." He glanced down at his costume again. "This is really preposterous. Is that you calling, Adelaide? Yes, we'll be there at once. You see, Mrs. Lee, the party is beginning and I've promised my niece to be in the grand march. You'll join us, won't you?"—Chicago Daily News.

Pot Funny Stories.

Authors are not above having a pet story to be told over and over again on occasion—and off, too.

Emerson Hough, who in his novels deals with extremely serious topics, has a keen sense of humor and never tires of telling about a guide he once had on a fishing trip in the Adirondacks. This guide had also been employed by Grover Cleveland and Dr. Henry van Dyke of Princeton university. Shortly after the birth of President Cleveland's little daughter the chief executive went on a fishing trip and was delighted to learn that his guide had also become a father.

"How much did your baby weigh at birth?" asked Mr. Cleveland.

"Twenty-two pounds, sir," answered the guide.

"Twenty-two pounds!" exclaimed the president, in amazement; "why, my baby weighed but seven."

## WHY DR. WILEY IS FOR WILSON

He Says Taft and T. R. Are Soldiers of Fraud.

### ENEMIES OF PURE FOOD LAW

Famous Chemist Believes the Health of the Nation Demands Election of the Democratic Ticket.

By HARVEY W. WILEY,  
(Former Chief Chemist of the U. S. Department of Agriculture.)

My appeal is chiefly to those who, like myself, have been lifelong Republicans. I believe that no kind of an administration is going to ruin the country. I have a high personal regard for each one of the candidates for president and vice-president on all the tickets. All the political platforms are mainly sound and all promise effort in behalf of the whole people. My choice is not based on a platform. It was determined by my impressions of the real attitude of the candidates respecting the public welfare. We are creatures of heredity and environment. In our attitude towards great public questions we are almost altogether creatures of environment.

What two men are by environment least likely to be swayed by special interests and most likely to be guided by devotion to public welfare? Two of the candidates have already been tried in the presidential chair and we know by experience what may be expected of either of them resume his former seat on March 4, 1913. Mr. Roosevelt by reason of his attitude towards the food and drug act abandoned the consumers of the country to the rapacity of a few mercenary manufacturers. Under authority of congress I had carried on extensive experiments with my so-called poison squad and found that certain substances, viz., benzole compounds, sulphur compounds and sulphate of copper (blue stone), were injurious to health.

The law conferred upon me, as chief of the bureau of chemistry, the duty of acting as a grand jury and determining whether foods and drugs were adulterated or misbranded. Instead of appealing from my decisions to the courts as the law requires, the users of these poisons appealed to President Roosevelt. He not only listened to them, but he abrogated the plain provisions of the law, appointed a board not contemplated by the law, and directed that these predatory interests might continue their attacks on the health of the people until this board, unknown to the law, should decide otherwise.

Can we safely trust the campaign for public health to Mr. Roosevelt? I cannot believe that to be the proper course. Mr. Taft inherited this exceedingly bad condition of affairs from his predecessor and has not only continued this illegal board under whose patronage adulterators are still poisoning the people, but he did worse. In the matter of the adulteration of distilled beverages in which Roosevelt upheld the legally constituted authorities, Mr. Taft reversed that policy and threw the mighty weight of the executive office to the support of the worst lot of adulterators that ever disgraced a country.

Mr. Wilson and Mr. Marshall by their strenuous efforts in behalf of the food laws of their respective states, have given a positive promise to end such a threatening state of affairs. They will support to the utmost the officials under the law who are trying to protect the public health and will make short shrift of those who have brought about these present unbearable conditions.

Wilson and Marshall by their education and environment are free from bias in favor of predatory interests and are inspired by true patriotic zeal in behalf of public welfare.

I support the Democratic nominees in full knowledge that many of the prominent Democrats in congress have been in full sympathy with the paralysis of the food law in behalf of the unholy dollar. But when the Democratic president and vice-president lead the aid of their powerful sympathy in behalf of the public health those of their own party not in sympathy with them will be robbed of their power for evil. If Roosevelt or Taft be chosen the soldiers of fraud and adulteration will be impregnable entrenched for another four years and benzoes, sulphites and adulterated alcoholic beverages will have a new lease of life.

I believe also that President Wilson will renovate the department of agriculture, reeking, as it has been for the past twelve years, with scandals and favoritism. He will see to it that the bureau of animal industry will protect the public health instead of the efforts of the packers to sell diseased meats under the deceptive phrase "U. S. Inspected and Passed." Under President Wilson no more Pinchots will be kicked out of the service, no more unspeakable McCabes will exercise dictatorial powers. There will be no more cotton leaks and jungle atrocities, no more Everglades swindles. Buccaneering, boasting and buncombe will give place to sane efforts for the promotion of real agriculture and the public health.

Under Wilson the department of agriculture will be restored to speak-

ing terms with the State Agricultural Colleges and Experiment Stations, and the State officials will no longer be regarded as inferior beings, living only on the largess of a Washington cabal. I ask all who want honesty and faithful service in the Department of Agriculture, the promotion of public health, and executives who have grown to manhood and lived in an environment favorable to that which makes for the public welfare, to vote for Wilson and Marshall.

## TAXING POOR MAN'S COAT OFF HIS BACK

Concrete Illustration of What a Republican Tariff Really Means Causes Workers to Think.

Concrete examples of how a protective tariff operates are causing the working man, the "poor man," to do a lot of thinking nowadays. He is beginning to understand whether it is not about time to call a halt on the Republican practice of taxing the coat off his back and threatening him with the loss of his shirt and his socks if he does not submit.

All through the present tariff law, passed by a Republican congress and endorsed by a Republican President as THE BEST TARIFF BILL EVER PASSED, are to be found discriminations, the higher duty on the cheaper article, the lower on the shoulders of those least able to bear it the greater burden of the protective system. Here are some illustrations:

The cheapest wool blankets bear a duty of 165.42 per cent; the dearest, 104.55 per cent.

Flannels, not more than 40 cents a pound, are taxed at 143.67 per cent; over 70 cents a pound, 76.37 per cent. Wool plushes, cheapest, 141.75 per cent; dearest, 95.33 per cent.

Knit fabrics, cheapest, 141 per cent; dearest, 95.53 per cent. Stockings, worth from \$1 to \$1.50 a dozen, 76.37 per cent; from \$2 to \$3, 59 per cent.

Hats and bonnets, worth not over \$5 a dozen, 62 per cent; over \$20 a dozen, 35 per cent.

Carpets, highest priced, 50 per cent; that used for mats and rugs, 126.88 per cent.

Women's gloves, unlined, 49 per cent; lined, 24 per cent; longest gloves, unlined, 42 per cent; lined, 29 per cent.

Men's gloves, worth less than \$3 a dozen, 66.28 per cent; costliest gloves, 14.45 per cent; leather, unlined, 44.58 per cent; lined, 29.50 per cent.

Buckles, cheapest, 77.48 per cent; dearest, 26.3 per cent.

Uncut diamonds bear a 10 per cent duty; imitation diamonds, 20 per cent. The humble firecracker bears a 97.02 per cent duty, while elaborate fireworks bear but 70 per cent.

Mattings, smaller and cheaper grades, 48 per cent; costlier, 24 per cent. Watch movements, seven jewels, 66.02 per cent; 11 jewels, 40.41 per cent; 17 jewels, 34.45 per cent.

Underwear, cheapest, 56.90 per cent; dearest, 50 per cent. Dress goods of wool, cheapest, 105.42 per cent; dearest, 94.13 per cent.

Velvets, cheapest, 105.22 per cent; dearest, 49.55 per cent. Silk handkerchiefs, cheapest, 77.44 per cent; dearest, 59 per cent.

Scissors, worth 50 cents a dozen, 52.21 per cent; worth \$1.75 a dozen, 46 per cent.

Table knives, fancy grades, 57.40 per cent; bone handled, 69.48 per cent. Butcher knives, best grades, 52.10 per cent; cheapest grades, 93.55 per cent.

Fishes, smallest, 81.29 per cent; longest, 36.81 per cent. Shot guns, worth from \$5 to \$10, 47.67 per cent; worth over \$10, 45.46 per cent.

These are only a part of the discriminations, gleaned from a swift culling of some of the schedules. Reduced to simplest terms, they mean that the poor man is taxed higher than the rich man.

The Third Term candidate's favorite reply to the telling, unanswerable arguments of Gov. Wilson is that the latter's opinions are based "not on actual knowledge and experience but by reading musty books on political economy." The Colonel himself at a tender age was put at hard labor! It is not often that a man whose whole life has been given up to politics and office-holding gets as horny-handed as Mr. Roosevelt in the ranks of labor and high finance!

Wonder if Emerson was gazing upon a Moose calf when, several decades ago, he wrote:  
"I am the owner of the sphere,  
Of the seven stars and the solar year."

President Taft congratulates the Republicans of Maine on what Chairman Hilles describes as "an old-fashioned victory." Another such and Vermont and Rhode Island would go Democratic in November.

The card-stacking at Armageddon goes merrily on. Eight Taft electors in Missouri announce that if elected they will vote for the Third Term candidate.

Those who know and feel for Chairman Hilles say he really isn't to blame for the Republican presidential candidate's announcement that he "is out of politics."

A Western Third Termer regrets that Roosevelt will not have time before election day to say half he means. He'll have plenty of time following it.

## NOTES of SPORIDOM

### BASEBALL

The Giants lost one series during the season, the Cubs beating them 13 games to 9.

Handsome Harry McIntire, the Cinder King, is free to sign and will listen to offers for his services.

Pitcher Pickett, of the Bloomington team in the Three-I League, pitched two no-hit, no-run games this season.

The veteran player, Kid Gleason, who has been coaching the Chicago White Sox, has several offers to become a manager.

Two brothers, Tom and Jim Drohan, of the Kewanee team, are the leading pitchers of the season in the Central Association.

Ty Cobb has now hit for better than 400 in two seasons running, and declares that he can make the 400 class next year as well.

Manager George Stovall, who has gathered quite a bunch of promising players, believes that the Browns will travel in the first division next year.

"Red" Murray didn't get a hit in the world's series last year, but came across with the hit, in the big series this year, that scored the Giants' first run.

Walter Johnson, the great Washington pitcher, hit but one man all season. Martin, of the Highlanders, was the player. He stepped into one of Walter's fast ones and was beamed.

By keeping to his decision not to play with the Pirates the past season, Manager Fred Clarke won several suits of clothes. Friends of the Pirate leader, who thought he couldn't keep out of the game, were the victims.

Two old Brooklyn catchers, Bill Bergen and Lou Ritter, showed their big league training this season. Bill was a whale with the Baltimore team and Ritter caught every game played by the Utica, New York State League champions.

Baseball loyalty of Harry Ackersland, who recently purchased Frank Chance's stock in the Chicago Cubs, runs three ways from the deck. His home is in Cincinnati, but he is located in Pittsburgh, is a Pirate rooter and owns stock in the Cubs.

### FOOTBALL

Darmouth's second team has been giving the varsity eleven some hard polts this season.

## CLASSIFIED ADVERTISING!

DIVIDES THIS PAPER'S  
READERS INTO FOUR DIFFERENT GROUPS.

ONE group of readers will read all of the 'Situations Wanted' Ads—because every person in that group is looking for a worker.

A SECOND group of readers will read all of the 'Furnished Rooms to Let' Ads—because every person in that group is looking for a furnished room.

A THIRD group will read all of the 'Real Estate' Ads—because every person in the group is a prospective buyer of real estate.

A FOURTH group will read all of the 'Business Opportunity' Ads—because this group consists of people who MAKE THEIR MONEY WORK FOR THEM—and who are ALWAYS looking for GOOD JOBS FOR DOLLARS.

THUS every classification draws to itself a group of readers influenced by self-interests to everyone of whom that classification of ads means PERSONAL OPPORTUNITIES.

YOUR classified ad, therefore, has an audience awaiting it—an audience of alert people, anxious to consider your offer or your want and to do business with you if your proposition is plausible. SEE PAGE 2

## THE NEWS

Howard Jones, the former Yale stars, is at Exeter Academy.

The Carlisle Indians are using their 1911 criss-cross again this year, but find the play harder to put over.

Coach Houghton allowed the Harvard football players a day off in order to attend the Red Sox-Giants game in Boston.

The Princeton Tigers are improving in their gridiron work right along and football critics predict another great year in football for old Nassau.

### BUY YOUR COAL NOW AND SAVE MONEY

On account of wishing to keep our ice service good so that you will get your ice in good time on the warm days, we have decided to sell our Coal at about cost for a while so as to keep our men and teams busy during what cool days we have, so that we will not have to reduce our ice delivery service, order now and we will deliver to you as we can before the cool weather sets in. Remember that we handle the very best Coal. There is many poor mines in a district that is supposed to be good. We buy only from the best and where they prepare it best, there is a fire clay in all mines in this state, the least bit of fire clay in coal will cause it to clink er, the fire clay will get into all coal that is mined by the blasting process, we buy only machine mined coal which is the only process that will insure no fire clay, in mining with machines there is a roof and a floor left of coal and there is no way for it to

get in, machine mined coal goes on the market at a much higher price than blasted coal, but we have always thought that our customers wanted the best and we have got it for them and sold it for about the same price some sells a low grade of coal for, also remember that we load our wagons with a fork which insures no slack, we can burn our slack under our boilers, and realize something out of it while it is worthless for stove use. We are the only coal dealers in town that has use for slack, what ever amount of slack you get in your coal is the real amount of shortage you have, as it is the same as no coal. We guarantee our weights, and you get 2000-pound tons from us. We have in stock Dewar Lump, and Rotary screened Nut and the best McAlester Lump. Call us up before you buy, we can save you in price and in quality of the coal. Phone 29.
